REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 1-11, wherein the references cited are considered closest teaching to the claimed invention these references do not disclose a transmission device comprises rods adapted to be arranged along the contour of a box, transmission elements slidably mounted around the rods, a motor adapted to be securely mounted in the box and a having a disk rotatably connected to a motor shaft, a driving rod eccentrically formed on top of the disk, at least one securing member securely connected to the transmission element, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following references are cited for disclosing an optical device comprising a transmission means which moves an optical element, but these references do not disclose the

limitations claimed in the present invention: Bicskei (4077722), Gold (4906082), Sato et al. (5450175) and Chan (5737135).
